HVAC Works

- 1- Supply and installation of HVAC equipment including air water cooled chillers, chilled water pumps, condenser water pump, cooling towers, air cooled roof top package units, air handling units, Fan coil units, air cooled split condensing units, ductable split ac units, Fan coil Units, ventilation fans and exhaust ventilation fans etc.
- 2- Supply and installation of chilled water distribution system including pipes, fittings, valves, supports, expansion tanks, thermal insulation and pipe cladding.
- 3- Supply and installation of the air distribution system including ductwork, duct fittings, balancing dampers, fire dampers, volume control dampers, air grilles and diffusers, fresh air louvers, split dampers, duct support, thermal insulation and duct instrumentation.

Fire Fighting Works

- Supply & Installation of complete firefighting services.
- Automatic Sprinklers Wet and Dry Systems
- Pump Rooms Supply & Installations
- Water Deluge System
- Fire Alarm and Emergency Lighting
- Fire Hydrants, HRC, Breeching Inlets and Landing Valves
- FM200 and Wet-Chemical Clean-Agent Fire Suppression Systems
- Industrial and Warehouses Specialized Fire Suppression Systems

Plumbing Works

- Installation of Cold and Hot Water Networks
- Installation of Drainage, Rain and Sanitary Fixing works
- Pump Rooms, Storage Tanks and Pressurized Water Distribution Systems
- Grey Water Systems
- Grease Removal and Treatment
- Water Cooling Works
- Central Heating and Solar Water Systems
- Irrigation Works

Electrical Works

- Supply and installation of electrical power distribution system of residential, commercial and management buildings and hospitals including lighting, sockets, panels, cable tray, generators, UPS, light current network of all systems.
- Supply and installation of cables supporting for the HVAC System units and firefighting pumps systems with safety calculations of loads and distributed control system, intelligent outstations, control valves, field devices, Sensors and transmitters, gages and flow meters.
- Supply and installation of MV and LV networks, including RMU, Transformers, Switchgears, MV and LV Cables and its terminations and LV distributing panels and boxes .
- Supply and installation of Street lighting and clubs

Power Works

lighting including panels, cables, columns and lighting fixture for streets columns or flood light for clubs high mast columns .

- Supply and installation LV panels, SMDB's, MCC's up to final DB's, Earthing Protection System, Specialized Security System Panels with raceways, cable tray, conduits, wiring etc....
- Supply and installation of Complete Controls Systems and Building Management System.
- Design and shop drawings for all electrical systems with safety calculations of load schedule balance for all panels feeding the buildings.

Light Current & IT Services

- Fire Alarm Systems.
- Access Control System & Gate Barrier Systems.
- Public Address System & Intercom Systems.
- Emergency Lighting Systems.
- Central Battery System UPS.
- Intrusion Alarm System.
- Nurse Call System.
- Home Automation.
- CCTV, MATV & SMATV Systems.
- Telecommunications
- Audio Visual Systems.
- Acoustics and evacuation.
- Surveillance Cameras.

Human Capital

Safeco Egypt Team members

One thing was clear - We are not different departments, but one multi-functional team that is driven by a common purpose of transforming our business.

As we come together to bring our company vision to life, we know that our we can lean on each other for support and to provide an environment that promotes open communication.

Chairman

Eng. Saad El Nady

- Eng. Saad El Nady is one of the promising leaders in the Construction Egyptian Market where he possesses more than 15 years of experience in national and international MEP projects with successful track records.
- He believes that the real investment is in the human assets because they are the main drivers of sustainable success; therefore, he creates an unremitting learning environment, he also enhances innovation that had positioned Safeco as one of the distinct MEP companies in the Egyptian Market.
- He also believes in diversity and women empowerment, Safeco staff includes eminent women calibers from engineers and business administrative who are having major impact in the company mission and vision.

A MESSAGE From Eng. Saad El Nady

When we established Safeco in 2012, we expected to achieve a certain level of success. However, since that time, the milestones and successes we have achieved as a team have far surpassed any of our expectations.

Building on our existing relationships that we have cultivated and maintained since we began operating independently in the field, we have come to realize that the sky is the limit for us here at Safeco.

Our relationships are of the utmost significance to us, and we owe our success to, not only the world class level of products and services we provide, but more importantly to the trust our clients have placed in us; a trust we seek to maintain and take to new heights through continuing in the tradition of excellence we set out to provide from the get go.

I would like to thank our Board, both past and present, for placing their trust in me and work with me to achieve our target. I've met many wonderful people and have made many new family members.

Electrical Projects Manager
